

Understanding your report:

Information from the previous Progress Check is shown here.

Progress Check June 2025						Previous Levels
Subject	Effort	Predicted GCSE Grade	GCSE Target Grade	Homework	Behaviour	
Example	4	6	6+			

Predicted GCSE Grade

Where appropriate a **Predicted Grade** is given for each subject which is based on teacher assessments. This is an indication of the most likely GCSE grade a student will achieve if they continue to work at their current rate.

The Predicted grades will be a single number ranging from **1 to 9**, where 9 is the highest possible grade.

Students and parents can see how their predicted grade compares to their GCSE target grade (next column).

This progress will be reviewed regularly to help us celebrate student success or to indicate where improvements are necessary.

GCSE Target Grade:

This is an **aspirational target** based on the progress achieved at Key Stage 2 for each student. They compare the results of previous students who had a similar profile. They give an early indication of the grades that are possible if a student maintains good effort in their lessons.

The confidence of each target grade is indicated with either a : +, = or - sign. For example, if the target is a **4+** then a higher grade might also be realistic. A **4=** means that this grade is the most likely whilst **4-** indicates that a lower grade is a possibility.

The ambition for every student should be to meet or exceed their targets. There is no limit on progress no matter where a student is starting from.

The criteria for Effort, Behaviour and Homework can be found overleaf.

Teachers will be reviewing all of this information with students, looking for ways to improve where appropriate; we would appreciate you doing the same at home too.

Should you wish to discuss any of this information with us then please contact your child's Form Tutor or Mrs Rodway, Head of Year 9.
